

BUILT WITH LONGEVITY IN MIND - ELIMINATE DECK ROT

ENJOY PROLONGED LIFE AND OPTIMAL PERFORMANCE

OUR Z42 CHASSIS AND DECKS ARE BUILT
2X STRONGER AND 40% LIGHTER
 THAN INDUSTRY STANDARD MARINE GRADE PLYWOOD

WEATHER & FADE RESISTANT FLOORING

We use marine grade vinyl that gives protection from ultraviolet (UV) rays from the sun. This ensures longevity and resistance to color fading.

INTEGRATED DECK TRIM & RUB RAIL

No glue, no worries. Trim won't detach due to failing adhesives.

CONTINUOUS RISER BRACKET

We weld our risers directly to the tubes for the strongest and most rigid chassis structure available.

PRESSURIZED TUBES

Air pressure increases the rigidity and durability of pontoons. Our design features a standard Schrader valve for quick maintenance and serviceability.

52-INCH NOSE CONE

You'll notice an instant increase in acceleration by the ability to get on plane faster.

MULTI-POINT REINFORCED SPLASH FINS

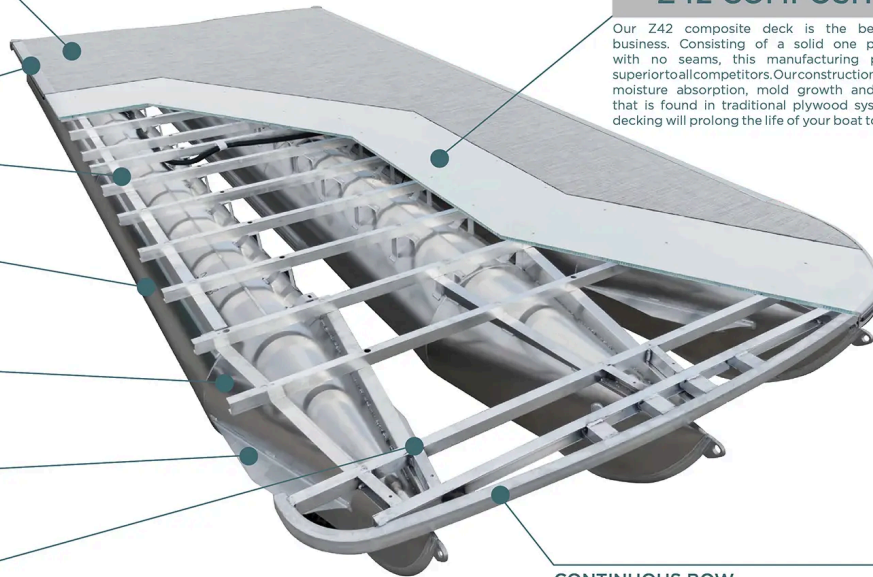

Keep splashback off your boat. Standard for Forest River Marine, not a gimmicky upsell.

STRONGER BONDED BOLT THROUGH

Screwed, glued and bolted. Our bolt attachment technique will last years longer than traditional methods.

Z42 COMPOSITE

Our Z42 composite deck is the best in the business. Consisting of a solid one piece deck with no seams, this manufacturing process is superior to all competitors. Our construction eliminates moisture absorption, mold growth and deck rot that is found in traditional plywood systems. This decking will prolong the life of your boat to its fullest.

**CONTINUOUS BOW**

Constructed of C-channel and box channel tubing, resulting in the strongest bow on the market.

LIFETIME STRUCTURAL WARRANTY
 ALL ALUMINUM AND WELDS BELOW DECK
 7 YEAR FLOORING OR VINYL UP
